

Amendments to the Claims:

1-17 (Cancelled)

18 (original) A method for brewing a beverage comprising the steps of:

- (a) inserting a filter pack comprising a beverage precursor in to a brew funnel of a beverage brewing apparatus and aligning a filter receiving means of the filter pack onto a key means within the brew funnel; and
- (b) subjecting the filter pack to water.

19 (original) A method for brewing a beverage according to claim 18 wherein the beverage precursor is a coffee precursor or a tea precursor.

20 (original) A method for brewing a beverage according to claim 18 wherein the beverage brewing apparatus displays a brand, and the filter pack is suitable to brew a brand of beverage that matches the brand displayed on the beverage brewing apparatus.
